ABOUT CHINA

About studying in China

MBBSEngineeringBusinessComputer Science

Language + Foundation

China has become a serious study-abroad option for Indian students because it combines large public universities, structured campuses, international student offices, and comparatively controlled yearly costs. MBBS is the strongest route in the current CCIC data, but China can also be reviewed for engineering, management, computer science, and language foundation routes where the course, city, budget, and recognition fit make sense.

CCIC COUNSELLING EXPERIENCE

How CCIC keeps the China decision practical

This is the trust section: the student should understand that CCIC is not pushing a country blindly. The process checks profile, university fit, document readiness, and parent clarity before money is committed.

- 1

Profile review

Marks, course goal, budget, passport status, and family preference checked first.
- 2

Shortlist logic

Universities are compared by city, fees, medium, recognition, hostel, and support.
- 3

File support

Documents, offer steps, visa papers, and pre-departure readiness stay organized.
- 4

Parent clarity

Counselling focuses on practical risk, total cost, and backup options before payment.

FIT CHECK

Good fit vs think carefully

 Good fit if

- You want MBBS abroad with a controlled yearly budget.
- You are NEET qualified and ready for a 6-year international route.
- You prefer large public universities with hospital exposure.
- You want CCIC to help compare recognition, fee, and city fit.

 Think carefully if

- You are not ready to prepare for FMGE/NEXT after graduation.
- You need fully Indian-style food and lifestyle from day one.
- You want admission without checking recognition and medium carefully.
- You are choosing only by low fee, not by university quality.

UNIVERSITY SHORTLIST

COST PLANNER

Understand the full China MBBS budget

A premium page should make money decisions clear. CCIC reviews tuition, living, hostel, visa, travel, and first-year settlement before you commit.

Tuition fee Depends on university and city	Rs. 3L-8L / year
Hostel / stay University hostel or shared stay	Rs. 15K-35K / month
Food + daily expense Indian mess varies by campus	Rs. 8K-15K / month
Visa + travel setup Reviewed before departure	Case based

- ADMISSION PATH**
- ### How CCIC moves your China file
- The process is shown as a working counselling flow, not a random timeline.
- 1 Profile check**
PCB marks, NEET status, budget, passport readiness, and parent preference.
 - 2 University shortlist**
Compare city, total cost, English medium, hostel, and recognition notes.
 - 3 Application file**
Marksheets, passport, photos, medical/fitness, and university forms.
 - 4 Offer + JW202**
Track offer letter, payment schedule, admission confirmation, and visa papers.
 - 5 Visa + travel**
Prepare X1/X2 visa file, booking plan, forex, and pre-departure briefing.

- BEFORE YOU APPLY**
- ### Keep the China file ready before intake pressure
- This merges the practical document checklist and student-life questions so the bottom of the overview does not feel bloated.
- 10th and 12th marksheets

Valid passport

Medical or fitness certificate

University application form

NEET scorecard

Passport-size photographs

Financial proof / sponsor documents

Admission letter and JW202 after offer

STUDENT LIFE REALITY

What students usually ask before China

Short notes only. Deeper details can live in the living guide tab.

Food
Many campuses with international students provide Indian mess or nearby Indian food options.

Language
MBBS classes can be English-medium, but basic Mandarin helps during daily life and clinical exposure.

Safety
Major student cities are generally safe, with structured campus housing and international offices.
